

ADIMOK-110

Dispersant is a 100% active polymeric dispersant

Overview	ADIMOK-110 are suitable used in medium to high polar solvent system paints	
Product data	Appearance	Transparent liquid
	Gardner color	5 Max
	Active content	100 % / 50 %
	Solvent	n-butyl acetate
	Flash point	48 °C
	Specific gravity	1.1 g/cm ³
Product property benefits	<ul style="list-style-type: none"> • Widely used in inorganic pigments, especially TiO₂ • Prevent flooding and floatation • Higher gloss and strength of TiO₂ • Good dispersion in extinction powder • Inorganic Pigment 	
General application	<ul style="list-style-type: none"> • High performance in wood coatings • Disperse extinction powder • General industrial coatings • Benzene, ester and ketone gravure inks
